

Supporting and standardising climate services in Europe and beyond

Christian Pagé and the Climateurope2 Consortium

CERFACS, Toulouse, France

IS-ENES3 Final General Assembly, 14-18 January 2023

Climate services

Climate services are the provision of climate information and knowledge for use in decision making that can help people and organizations deal with the impacts of climate variability and climate change.

Climate services **need to be co-produced** with the potential users of this information.

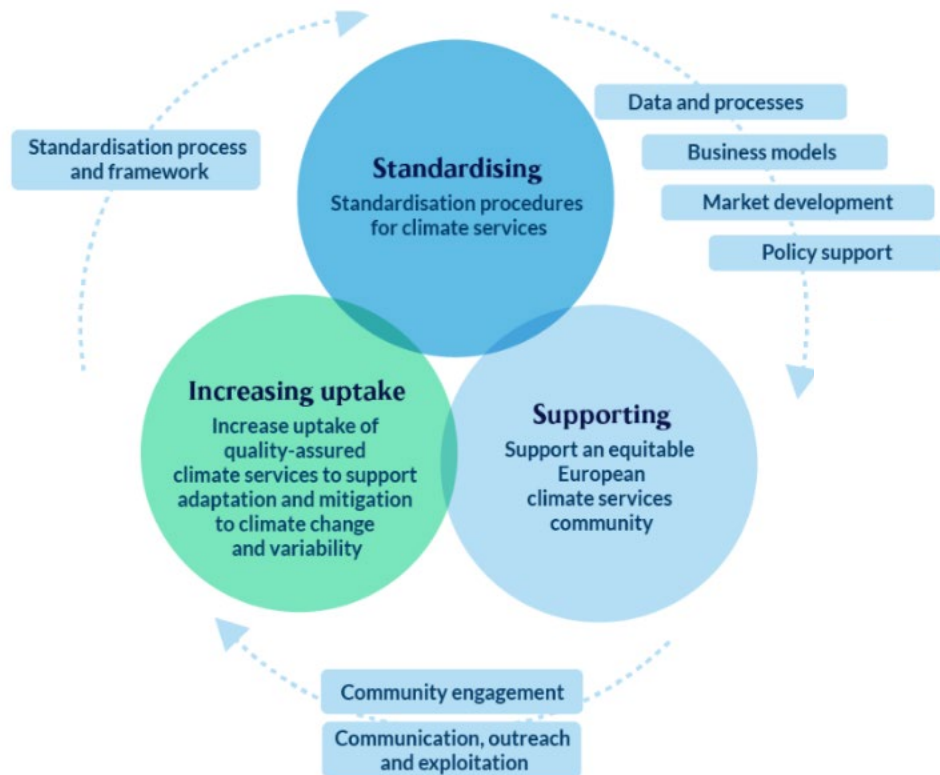

Until now, there is a **lack of consensus on (best practices in) climate services standardisation processes.**

CIAT-Bioversity Alliance (2020)

Hewitt & Stone (2021) Climate services for managing societal risks and opportunities

Supporting and standardising climate services in Europe and

Climateurope2 is a Horizon Europe **Coordination and Support Action** that will run from 2022-2027. The project aims to support and develop the community of climate services in Europe. It also aims to increase the uptake of climate services and their standardisation process.

Climate services are the provision of information and knowledge that can help people and organizations deal with the impacts of climate variability and climate change.

JOIN OUR NETWORK

<https://climateurope2.eu>

Objectives and structure

Standardising

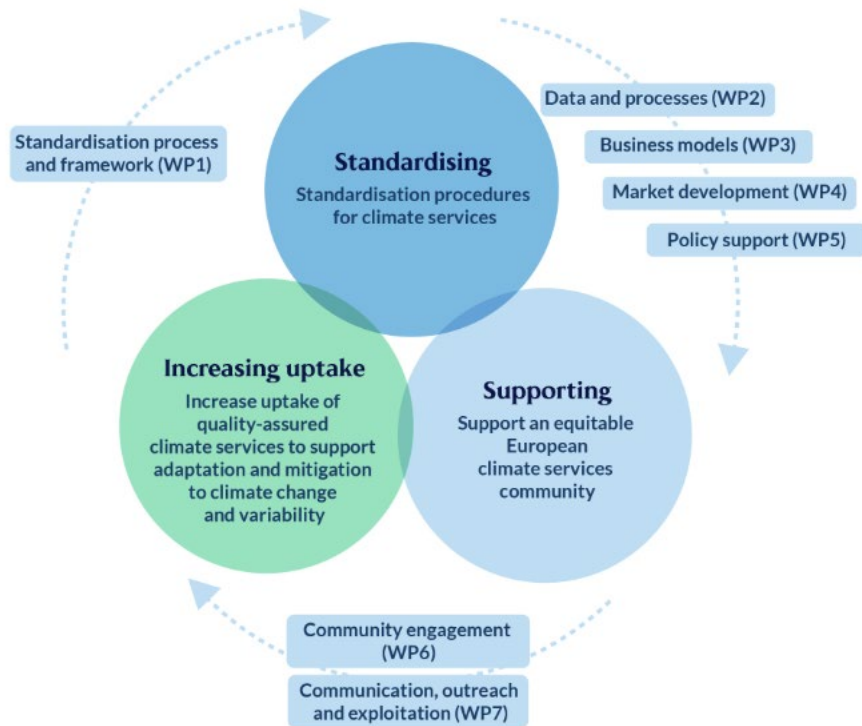

Development of **standardisation** procedures for climate services

Supporting

Support of an equitable European climate services community

Increasing uptake

Enhancement of the **uptake** of quality - assured climate services to support climate adaptation and mitigation

Supporting an equitable climate services community

Climateurope2 platform: to build consensus on inventories, good practices and guidelines, and standardisation processes.

- **Festivals**
- **Webstivals**
- **Roadshow**, to bring the 'festivals' idea to different nations to engage, bring capacity and help drive action locally
- **Science-art activities**
- **Events for journalists**
- **Business breakfasts**, for standardisation, certification and other business stakeholders
- **User perspectives webinar series**, where network participants will be the protagonists
- **Podcasts**
